

# GETTYSBURG INSTITUTE SUMMER PROGRAM

June 30-July 15

We are delighted you are eager to embark on a five cities learning experience to Spain. Over the years we have received students from Europe in the US but now, it is your turn to see Europe. Your trip to Spain will enable you to visit Granada and Cordoba as part of your 2wks summer treat.

While in Granada, you will visit important monuments and sites of great architectural designs like the Alhambra de Granada, a palace and fortress complex originally constructed in AD 889 on the remains of Roman fortification. Your experience includes meeting with the locals and learning to communicate in Spanish at home with your host. This is a great opportunity you don't want to miss
